

# GRAP POCKET LIBRARY

## 8-VOLUME SET

978 148514 036 8

2023 EDITION

ZAR

R1 825.00

## ABOUT THE PUBLICATION

The Standards of GRAP set out the principles that government and its entities use to report on their finances in their financial statements. As government and its entities use public resources – taxes, public infrastructure, natural resources – to provide critical goods and services, a higher degree of scrutiny is required on government's finances.

This higher degree of scrutiny is embedded in the way in which the principles in the Standards of GRAP are designed. The principles in the Standards are designed to provide users of the financial statements with information to hold government and its entities accountable for a range of activities. Users in the public sector also use the information in the financial statements to make a range of decisions, which could include liquidity, solvency, and affordability and sustainability of government finances and services.

Given the roles of the Standards of GRAP in providing relevant, credible information in the financial statements, their application is critical to strengthening democracy in South Africa. The new easy-to-use *GRAP Library* contains the consolidated Standards of Generally Recognised Accounting Practice (GRAP) and related material developed by the Accounting Standards Board (ASB).

## THE GRAP LIBRARY INCLUDES THE FOLLOWING EIGHT VOLUMES:

- The Conceptual Framework for General Purpose Financial Reporting
- Standards of GRAP effective 1 to 19
- Standards of GRAP effective 20 to 35
- Standards of GRAP effective 36 to 110
- Interpretations of the Standards of GRAP
- Standards of GRAP and the Interpretations of the Standards of GRAP approved but not yet effective
- Directives
- Guidelines
